Spring 2007

Performance Report for San Diego Regional Center

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at SDRCC we served about 16,340 consumers. The charts on page 2 tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At SDRCC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see in this report, we did well in meeting DDS compliance standards. But, we still need to improve in having fewer persons live in large facilities.

We hope this report helps you learn more about SDRCC. If you have any questions or comments, please contact us!
